

Put your STEM skills to work in the classroom

photo: eie.org

Attn: Physical Scientists & Engineers

You are invited to explore volunteer opportunities in Juneau's elementary school classrooms. Your skills can help empower children toward discovery, teaching them about science while developing problem solving and critical thinking skills to tackle real world challenges.

Engineering is Elementary (EiE) **VOLUNTEER TRAINING** **Friday, December 6th, 12pm-4pm** **University of Alaska Southeast**

TRAINING TOPICS INCLUDE:

- Working with elementary-aged students
- How to facilitate an Engineering is Elementary module
- Various teaching modules that fit with your area of expertise

Additional training focused on Natural Sciences to be held at a future date.

**SPACE
IS LIMITED!**

Email Kevin Crowley
jkcrowley@jedc.org
to reserve your
spot

Approximate time commitment for volunteers is 6 classroom hours. For more Information on Engineering is Elementary and STEM education visit STEM AK | stemak.org.

This training is part of an initiative of the Research & Development Cluster to promote STEM Education in our region.

Partners: US Forest Service, UAS, STEM AK, NOAA, Alaska Communications
